Fun Food Facts

We eat 900% more broccoli today than we did 20 years ago!

In 1970 the average consumption of Broccoli was half a pound, in a recent survey (1997) the average consumption was found to be four and half pounds. In 1998, 90% of the broccoli grown in the U.S. came from California. Today it is grown in nearly every state, but California is still the top producer.
